

Specialty Manufacturing, Inc. (SMI) Statement on COVID-19 Business Continuity
Updated 3/23/20

As of Monday, March 23, the State of Michigan is operating under "shelter-in-place" protocols for all non-essential business operations. Specialty Manufacturing, Inc. (SMI) manufactures critical medical supplies, and is continuing business operations as an essential service. Should the State's directive change, we will communicate with impacted customers directly and will share timely updates on our website and LinkedIn page.

The health and safety of our employees is our top priority. We are taking precautions to prevent the spread of COVID-19, including maintaining safe distances between coworkers, canceling all non-essential travel, allowing remote work options for office employees, and increasing cleaning and sanitation procedures throughout our facility.

If you have questions about an in-process order or an urgent request related to essential operations, please [contact us](#) for more information. We appreciate your patience and partnership during this time.
